FLOOD CONDITION IS ENCOURAGING

Engineer Tanner Makes Measurements.

Present Stage of Water Will Last for a Hundred Days.

He Reports Ample Supply for the Strawberry Reserveir With Fifty-Foot Dam.

LOOD conditions of the streams on the east side of the Wasatch range, which are included in the Government's Greater Utah irrigation project, are reported to be decidedly encouraging by Engineer C Tanner of the reclamation service, who but invent interesting little yarns and work them off on celebrities. Stories told has just returned from a trip to that section for the purpose of taking measurements of the spring discharges.

Mr. Tanner did not reach that country in time to take measurement when the streams were at their highest, their stage having reached what he considers about the normal spring stage. Three of the larger streams, the North Fork of the Duchesne, Rock creek and Lake Fork, were unfordable, however, and he was unable to obtain measurements of these. He secured measurements of the North and West Forks of the Duchesne, Strawberry river, Current creek and Red creek, the combined flow of them being about 1800 second-feet. The estimated flow of the two streams that were not measpred is about 1600 second-feet.

Two Different Conditions.

A feature of several of the streams on the east side of the range, as compared to the west side, is that their flood discharge is not so much greater than their normal or low water flow, the reason probably being that they are fed by the snaws of a higher allitude. the reason probably being that they are fed by the snows of a higher altitude. But the high water of the streams of the Duchesne river watershed is of longer duration, on account of the slower meiting of the snows of the greater elevation. Mr. Tanner's observations leading him to believe that the present stage of those streams may be safely counted upon to last 100 days. The measurements of them taken at this time averages only about ten this time averages only about ten times greater than the low water measurements, taken before the snow begins to melt, while the flood discharge of the Bear river, on this side, is often forty times greater than its flow at low water mark

flow at low water mark.

While the investigations of the reclamation service are by no means complete at this time, officials who have had the big irrigation project in charge consider the rusuits obtained wholly satisfactory. State Engineer A. F. Doremus, in discussing the situation, said flow at low water mark.

Water Enough for Reservoir. There is no doubt of though water fifty-foot dam at situation of this such that the data practicable heigh water to be store water is to be hi limit it might be the dam and the of the reservoir the the scheme. These be worked out and ment engineers are We believe, howeve, will be found to be

fifty-foot dam, even water obtainable she that it be built high-The natural reservo Strawberry valley is the finest in the West. level valley comprisin land, completely surro mountains except for a 425 feet across at the tour The dam to clos could be built 200 feet h water be available to fill to that depth. Even at fil-height of the dam the recontain something like a acre-feet of water, which very good reserve supply t tory which it is intended

shall cover. Engineer Tanner will lea on another trip to the Duch try, to complete the estab gauging stations where they already been.

over and the names of men and women or inence inserted

Few persons object to the use of their names in this manner. In many cases men are kept in the public eye only by means of the stories that are told about Senator Depew will stand for any

ise his name more than any other promi-ment man.

It is told of Chauncey that he was at-tending a function of some sort and had been sealed near a group of young women, everal of whom did not know him. Among that number was a gay girl who seemed to understand that the proper part of a conversationalist is to be wagginh and fa-millar.

miliar
Chauncey had been telling several of his
best stories and one of them had a few
whiskers on it. This afterded the girl the
opportunity she was looking for.
"Why are you telling us a lot of Chauncex Depew's old jokes." she asked.
"Well, I don't know," replied the statesman, a bit confused, "unless it is that I
am Chauncey Depew."

"Who are you for for President?" was asked of a Weber county statesman who is in the city to attend the Democratic State convention. "Well, I have been regarded all along as a Parker man. My constituents believed I would vote for Parker delegates when they elected me, should that matter become an issue and if I have not been tampered with I am still for Parker."

Last year's \$50 panamas look as cheap as fifty-cent Straws.

lever newspaper writers who do nothing

are printed about prominent per-sons are genuine. In fact, the real

ones are very scarce. There are

Some idea of the large number of atterleys in Salt Lake may be derived from the applications that are made to the City Recorder for free copies of the Revised Ordi-

corder for tree copies of the Revised Ordinances. Since the adoption of a resolution by the Council on Monday night providing that a copy of the ordinances be given each practicing lawyer in the city the deputies in the Recorder's office have been kept busy handing out the books.

Although the city had several hundreds of the books printed it begins to look as if there would not be enough to go around. The huge pile of books that reached nearly to the ceiling along the south side of the office is rapidly diminishing, and it is safe to say that they will all be gone in a day or two. It was at first decided to sell the ordinances at \$1.89 a copy, but under this order very few were disposed of Now every altorney in town, and many who claim to be attorneys, consider a copy of the city laws indispensable to their B-braries.

MANY BUILDINGS ARE BEING ERECTED NOW

Work on the new Empire block on West South Temple streets is progressing very satisfactorily, it being expected that the entire structure will be under roof by Saturday night. Notes of some of the other building operations in charge of Contractor J. Donnan Reavis are furnished by him as follows:
A handsome four-room brick cottage
is being built for John Illingworth, at
1450 South Third East street.

John James Phillips, shtpping clerk of the Z. C. M. L. will have built at once a five-room modern cottage, on Fourth East street, between Ninth and

Tenth' South, to cost \$2500.

The new store building being erected for Joseph H. Roberts, Eleventh East and Young streets, will, be occupied as soon as completed by Herman Folger and Benjamin Brown, with a modern streets.

Annie Sarah Gregory was granted a di-vorce from George S. Gregory by District Judge Stewart yesterday on the ground of failure to provide with the common neces-saries of ilfe. The couple were married in this city March 5, 1891, and have two chil-dren, the custody of whom is awarded to the plaintiff

Seventh South streets.

Foundation walls are being built for the new residence of Lorenzo D. Young. Seventh and I. streets, and for the five-room modern house of Postman Plerre O. Perry, 2167 South Eighth street.

Two new continues for Mrs. Markhameters. Two new cottages for Mrs. Martha M. Clive, rear of 555 West Temple street, are approaching completion.

SCIENCE SCORES AGAIN.

A Preparation That Will Destroy the

Dandruff Germ Discovered. Dandruff Germ Discovered.

Finally the scientific student haz discovered a certain remedy for dandruff. When it first became known that dandruff is the result of a germ or parasite that digs into the scalp and saps the vitality of hair at the root, causing falling hair and baidness, blologists set to work to discover some preparation that will kill the germ. After a year's labor in one isboratory, the dandruff germ destroyer was discovered; and it is now embodied in Newbro's Herpicide. It prevents baidness, stops falling hair and speedily eradicates dandruff. 'Destroy the cause, you remove the effect.' Sold by leading druggists. Send life in stamps for sample to The Herpicide Co., Detroit, Mich.

Nerve Fag.

If You Waste Your Nerve Energy, After Awhile You Will Suffer For It.

You can waste nerve force by excess, over-work, worry, anxiety, etc. You can weaken yourself by not eating proper food or securing sufficient rest to ew the nerve energy you use up. The proper treatment, in addition to good phosphatic food, such as whole meal bread, prepared cereals, etc., is

Dr. Miles' Restorative Nervine. This is as truly a brain and nerve food as any food you could eat, and be-sides, furnishes strength and tone of its own, which goes to the weakened nerve system and sets it to rights,

Dr. Miles' Restorative Nervine is a re-freshing, revitalizing tonic food-medicine for the brain and nerves. It reconstructs worn-out nerve tissue, and fills your languid brain with new life and vigor. Dr. Milea' Nervine has made so many marvelous cures, of people so sick the doctors thought they were incurable.

that it is today the standard medicine in many thousands of American homes. The first bottle is guaranteed to help you, or druggist returns your money. you, or druggist returns your money.

"The extreme heat, close confinement and intense mental strain incident to the banking business, has caused me to suffer with nervousness and insomnia. It gives me pleasure to say that I have used Dr. Miles' Norvine with very satisfactory results in the treatment of these affections. I am now on my fifth bottle, and eat and sleep well, in fact have almost forgotten that I possess herves —R. I. DALHY, Asst. Cashier, State Bank, Texarcana, Ark.
